ANNUAL
REPORT

2076/77

**INDEPENDENT AUDITOR'S REPORT
TO THE SHAREHOLDERS OF PRABHU BANK LIMITED**

Opinion

We have audited the accompanying consolidated financial statements of Prabhu Bank Ltd and its subsidiary (the Group), which comprise consolidated statement of financial position as at Ashad 31, 2077 (July 15, 2020) and consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended and a summary of significant accounting policies and notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements give a true and fair view of the consolidated financial position of the group as at Ashad 31, 2077, its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Nepal Financial Reporting Standards (NFRSs).

Basis for Opinion

We conducted our audit in accordance with Nepal Standards on Auditing (NSAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the audit of the Consolidated Financial Statements section of our report. We are independent of the Group and we have fulfilled our other ethical responsibilities in accordance with the ICAN's Handbook of the Code of Ethics for Professional Accountants. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are matters based on our judgment, are of most significance in the audit of the financial statements of the current period, which were addressed in the context of the audit of the financial statements as a whole, and in forming our opinion thereon. We do not provide separate opinion on these matters.

The results of our audit procedures, including the procedures performed to address the matters below, provides the basis for our audit opinion on the accompanying financial statements.

Following are the Key audit matters:

S.No.	Key Audit Matters	How the matters were addressed in our audit
1.	Investment Securities Valuation Ref. Note no. 4.8 and accounting policies to the financial statements.	
	The Bank has total investment securities of Rs. 20.32 billion as at 31 st Ashadh 2077 classified into	We applied following procedures in respect of Investment verification:

	different categories as "Available-for-sale" and "Held to maturity", which in aggregate represent 12.1 % of the total assets of the Bank. Classification of investment into different categories as "Available-for-sale", "Held for trading" and "Held to maturity" warrant management judgement and it impacts on valuation of investment securities and impairment allowance. Due to the percentage of volume over total assets and the requirement of management judgment for measurement of impairment allowance, considered this as key audit matter.	➤ Review of accounting policies adopted by the Bank based on Nepal Financial Reporting Standards and the Directives issued by NRB and compliance of the same. ➤ Evaluation of management's assessment to categorize investments into classified into different categories as "Available-for-sale", "Held for trading" and "Held to maturity" ➤ Verification of valuation of investment on sampling basis in reference to its cost and quoted market price as the case may be. ➤ Verification of impairment allowance provided for different investments in commensurate with NFRSs and NRB Directives.
2.	Covid 19 Impact Ref. Note no. 3.13 and accounting policies to the financial statements.	
	Long period of lock down due to Covid 19 has impacted operational revenue as well as profitability of the Bank. Further, the circulars issued by NRB for granting interest discount, rebate on interest rate as well as relaxation on repayment of loan to Covid impacted borrowers has also significantly impacted financial performance of the Bank, accordingly we considered this as key audit matter.	We applied following procedures in respect of Covid 19 impact verification: ➤ Verification of interest discount provided to the borrowers who has paid interest before specified date on sampling basis. ➤ Verification of rebate of interest in the IT system on sampling basis. ➤ Verification of additional loan loss provision required as per NRB circulars for those borrowers who were categorized as pass loan on Poush end 2076 and categorized differently at the end of financial year due to overdue of interest and installment of loan.
3.	Loan Loss Provision Ref. Note no. 4.7 and accounting policies to the financial statements.	
	The Bank's advances to the customers represent 59.3 % of its total assets at the end of period under review and are stated at Rs. 99.40 billion which is net of	We applied following procedures in respect of loan loss provision verification: ➤ Review of borrower's files, which includes evaluation of borrowers' repayment behavior,

provision of Rs. 3.51 billion. The provision against advances was identified as a key audit matter as it involves a considerable degree of management judgment and compliance with Directives and Circulars issued by Nepal Rastra Bank.	assessment of financial strength based on the available financial statements, adequacy of security / collateral, obtainment of required legal documents, CIC reports, and compliance with prudential regulations. ➤ Business sites visit of the borrowers on sampling basis. ➤ Review of IT system to provide loan loss provision based on overdue payments. ➤ On sampling basis, verification of accuracy of provision against non-performing loan calculated by the IT system and manual calculation on sampling basis. ➤ Evaluation of appropriateness of subjective judgement made by the management for performing loans' borrowers. ➤ Review of Board's evaluation and decisions on loans.

Other Matters

We did not audit the financial statements and other financial information of subsidiary. These financial statements and other financial information have been audited by other auditors whose financial report has been furnished to us by the management and our opinion on the financial statements in so far as it relates to the accounts and disclosures included in respect of the subsidiary are based solely on the report of the other auditors.

Responsibilities of the Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Nepal Financial Reporting Standards (NFRSs) and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations or has no realistic alternative but

to do so, those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a certain level of assurance but is not a guarantee that an audit conducted in accordance with NSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with NSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

We communicated with those charged with governance regarding among other matters, the planned scope and timing of the audit and significant audit findings including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

On the basis of our examination, we further report that:

- 1) We have obtained satisfactory information and explanations asked for, which to the best of our knowledge and belief were necessary for the purpose of our audit.
- 2) The financial statements which include Statement of Financial Position as at Ashad 31, 2077, the Statement of Profit or Loss, Statement of Cash Flows, Statement of Changes in Equity for the year then ended, a summary of significant accounting policies and other explanatory information are prepared as per the procedure and format prescribed by Nepal Rastra Bank and in agreement with the books of accounts maintained by the Company and proper books of account as required by the law have been kept.
- 3) The capital fund, risk bearing fund and the provision for possible impairment of assets of the Bank are adequate as per the Directives issued by Nepal Rastra Bank.
- 4) The returns received from the branch offices of the Company, though the statements are independently not audited, were adequate for the purpose of the audit.
- 5) We did not come across cases of accounting related fraud and the cases where the board of directors or any director or any office bearer of the Company has acted contrary to the provisions of law or caused loss or damage to the Company or committed any misappropriation of the funds of Company.
- 6) To the best of our information and according to the explanations given to us, in the course of our audit, we observed that the loans have been written off as specified; the business of the Company was conducted satisfactorily, and the Company's transactions were found to be within the scope of its authority.

Notes to the Consolidated Financial Statements For the year ended 31st Ashadh, 2077

1. Reporting Entity

Prabhu Bank Ltd. ("the Bank") formerly known as KIST Bank Ltd. is a limited liability company incorporated and operating in Nepal. The address of its registered office is G.P.O. Box 8975, Babarmahal, Kathmandu, Nepal. The Bank carries out commercial banking business in Nepal as class "A" financial institution under the Bank and Financial Institution Act, 2063. The Bank is listed in Nepal Stock Exchange Limited.

Subsidiary:

Prabhu Capital Limited (the Subsidiary) is the subsidiary company of the Bank. It was incorporated on October 27, 2008 (Kartik 11, 2065) as public company. The Bank made an equity investment in Prabhu Capital on May 31, 2017 (Jestha 17, 2074). The principal activities of the Subsidiary are to provide Merchant Banking Services. The Bank as on date holds 51% controlling interest in the Subsidiary.

Besides, 100% subsidiary of the Bank has been registered for the brokerage services in the name of "Prabhu Stock Market Limited", on June 12, 2019 (Jestha 29, 2076).

The Bank and the Subsidiary are collectively referred to as "the Group".

The Bank has held equity shares in Prabhu Life Insurance Co. Ltd (14.20% of total paid up capital) and Prabhu Insurance Co. Ltd. (6.06% of total paid up Capital) as on reporting date. Bank has also sent representative director (non-executive) to the mentioned companies. These investment has been accounted for as per NFRS-9, since shareholding does not exceed 20% of total paid up capital; and hence, criteria for classification as "Investment in Associates" are not met.

2. Basis of Preparation

2.1 Statement of Compliance

The Financial Statements of the entity which comprises components mentioned above have been prepared in compliance with Nepal Financial Reporting Standards and Nepal Accounting Standards (hereafter referred as NFRS), laid down by the Institute of Chartered Accountants of Nepal and in compliance with the requirements of the Companies Act, 2006.

For all periods up to and including the year ended 17th July 2016, the Entity prepared the financial statements in accordance with the Nepal Accounting Standards which were effective prior to 17th July, 2016. These financial statements for the year ended 15th July 2020 are the set of statements the Entity has prepared in accordance with NFRSs.

2.2 Reporting Period and Approval of Financial Statements

The Bank follows the Nepalese financial year based on the Nepalese calendar. The corresponding dates for the English calendar are as follows:

Relevant Financial Statement	Nepalese Calendar Date/ Period	English Calendar Date/ Period
Comparative SFP* Date	31 Ashadh 2076	16 July 2019
Comparative reporting period	1 Shrawan 2075 - 31 Ashadh 2076	17 July 2018 - 16 July 2019
NFRS SFP* Date	31 Ashadh 2077	15 July 2020
NFRS reporting period	1 Shrawan 2076 - 31 Ashadh 2077	17 July 2019 - 15 July 2020

*SFP = Statement of Financial Position

These financial statements have been adopted by the Board of Directors on its meeting held on 6th December, 2020 and have been recommended for approval by shareholders in the Annual General Meeting.

2.3 Functional and Presentation Currency

The Financial Statements of Entity are presented in Nepalese Rupees (Rs.), which is the currency of the primary economic environment in which the Entity operates. There was no change in Entity's presentation and functional currency during the year under review.

2.4 Use of Estimates, Assumptions and Judgments

The Bank, in order to comply with the financial reporting standards has made accounting judgements as having potentially material impact on the financial statement. Those judgements and their impact on the financial statement have been described herein. The management believes that the estimates used in the preparation of the financial statement are prudent and reasonable. Actual results may differ from the estimates. Any revision to the accounting estimate is recognized prospectively in the current and future period.

2.5 Changes in Accounting Policies

The Bank applies its accounting policies consistently from year to year except where deviations have been explicitly mandated by the applicable accounting standards.

2.6 New Standards in Issue but Not Yet Effective

There are no standards which have been issued but not yet effective up to the date of issuance of the financial statements.

2.7 New Standards and Interpretation not adapted

NFRS 1 First- time adoption of Nepal Accounting Standards allows first time adopters certain exemptions from the retrospective application of certain NFRS. The Bank thus has taken the following exemptions on Business Combinations.

- Not applied for subsidiaries, which are considered business for NFRS, or
- In interest in associates and joint ventures that occurred before 17th July 2016.

Use of this exemption means that the NAS carrying amounts of assets and liabilities, which are required to be recognized under NFRS, is their deemed cost at the date of the acquisition. After the date of the acquisition, measurement is in accordance with NFRS. Assets and liabilities that do not qualify for recognition under NFRS are excluded from the opening NFRS statement of financial position.

2.8 Discounting

When the realization of assets and settlement of obligation is for more than one year, the Bank considers the discounting of such assets and liabilities where the impact is material.

Discounting has been applied in case of measurement of prepaid expenses of staff loan. Employee benefits has been determined by considering discount rate as the average yield on government bonds issued during the period having maturity of five years or more. For the calculation of prepaid employee expenditure on subsidized loans discount rate as the average yield on government bonds issued during the period having maturity of five years or more plus premium of one percent has been used.

3. Significant Accounting Policies

The principal accounting policies applied by the Bank in the preparation of these financial statements are presented below. These policies have been consistently applied to all the years presented unless stated otherwise.

3.1 Basis of Measurement

The Financial Statements of Entity have been prepared on the historical cost basis, except for the following material items in the Statement of Financial Position:

- Financial assets, held for trading are recorded in the statement of financial position at fair value and the changes in the value have been routed through profit or loss statement.
- Available for sale investments (quoted) are measured at fair value.
- Liabilities for defined benefit obligations and staff loans provided at subsidized interest rates as per Employee Bylaws of the Bank are recognized at the present value of the defined benefit obligation less the fair value of the plan assets.

3.2 Basis of Consolidation

a. Business Combinations

For the purpose of business combination, acquisition method has been adopted as prescribed by the NFRS 3-“Business Combination”. The cost of an acquisition has been measured as the difference between the fair value of the assets obtained and the fair value of purchase consideration paid. The excess of the purchase consideration paid over the fair value of the asset has been recognized as goodwill. The excess of the fair value of the asset obtained and the purchase consideration paid has been recognized as gain on business purchase and credit to profit and loss immediately. The bank has held investment on Prabhu Capital Limited from 31st May, 2017 as subsidiary.

b. Non-Controlling Interest (NCI)

Non-controlling interests are measured at fair value of the proportionate share of the asset of the subsidiary at the date of acquisition. After the date of acquisition the share of the income has been appropriately adjusted to the NCI.

c. Subsidiaries

The bank recognizes an entity in which it has a controlling power as its subsidiary, Control is defined as the ability to affect the returns over the investee, has rights to variable returns from its involvement in the entity. The bank consolidates such entity in the preparation of the financial statement from the date when it starts exercising power over the entity and ceases the consolidation from the date the power over the investee ceases.

d. Loss of Control

When the Bank loses control over a Subsidiary, it derecognizes the assets and liabilities of the former subsidiary from the consolidated statement of financial position. The Bank recognizes any investment retained in the former subsidiary at its fair value when control is lost and subsequently accounts for it and for any amounts owed by or to the former subsidiary in accordance with relevant NFRSs. That fair value shall be regarded as the fair value on initial recognition of a financial asset in accordance with relevant NFRS or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture. The Bank recognizes the gain or loss associated with the loss of control attributable to the former controlling interest.

e. Special Purpose Entity (SPE)

Special purpose entity is a legal entity (usually a limited company of some type or, sometimes, a limited partnership) created to fulfil narrow, specific or temporary objectives. SPEs are typically used by companies to isolate the firm from financial risk.

The Bank does not have any special purpose entity as of now.

f. Transaction Elimination on Consolidation

Bank eliminates all the intercompany transactions, income and expenses while preparing consolidated financial statements as per NFRS 10 "Consolidated Financial Statement".

3.3 Cash and Cash Equivalent

Cash and cash equivalents includes cash in hand, deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less and bank overdrafts.

Details of Cash and Cash Equivalents are presented under Schedule No. 4.1.

3.4 Financial Assets and Financial Liabilities

Recognition

The entity recognizes financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognizes changes in fair value of the financial assets or financial liabilities from that date.

Classification & Measurement

Financial Assets are classified mainly under amortized cost, fair value through profit or loss and fair value through OCI. Financial Liabilities are classified at amortized cost or fair value through profit or loss.

The basic concept for the categorization of these assets depends upon their characteristics of business model and contractual cash flow model. Business model characteristics are whether the asset has been held to gain trading benefits or it has been held to collect contractual cash flow. Similarly, contractual cash flow characteristics determine whether the cash flow from the asset is solely the repayment of principal and interest or not. Principal represents the fair value of the instrument at the time of initial recognition while interest represents the time value of money and credit risk associated with the compensation.

1. Fair Value Through Profit or Loss:

Assets are categorized as fair value through profit or loss if the asset has been held in-order to obtain trading gain rather than to obtain contractual cash flows.

An asset can be recognized under this category if the bank has made an irrevocable decision to categorize an asset under this category in order to avoid accounting mismatch.

2. At amortized Cost:

Assets are categorized under this category if the business model is to obtain the contractual cash flow from the assets and the contractual cash flow is the solely repayment of principal and interest

3. Fair Value Through OCI:

Assets are categorized under this category if the business model is to obtain the contractual cash flow from the assets but the contractual cash flow isn't solely repayment of principal and interest.

Financial Liabilities:

Classification of financial liabilities

1. Financial liabilities at fair value through profit or loss:

These include financial liabilities that the entity either has incurred for trading purposes or otherwise has elected to classify into this category. Derivative liabilities are always treated as held for trading unless they are designated and effective hedging instruments. The designation of hedging instruments is discussed later in this chapter.

2. Financial Liabilities at Amortized cost:

It is the default category for financial liabilities that do not meet the definition of financial liabilities at fair value through profit or loss. All financial liabilities will fall into this category. Examples of financial liabilities that generally would be classified in this category are account payables, note payables, issued debt instruments, and deposits from customers.

De-recognition

Financial Assets are derecognized when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities at fair value through profit or loss are derecognized when the obligation specified in the contract is discharged or expired.

Realized gains and realized losses on de-recognition are determined using the weighted average method and are included in the profit or loss in the period in which they arise as gain on sale of securities. The realized gain is the difference between an instrument's weighted average cost and disposal amount.

Determination of Fair Value

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Entity has access at that date. The fair value of a liability reflects its non-performance risk. Fair value also represents the value of a company's assets and liabilities when a subsidiary company's financial statements are consolidated with a parent company.

Valuation hierarchy

For all financial instruments where fair values are determined by referring to externally quoted prices or observable pricing inputs to models, independent price determination or validation is obtained. In an inactive market, direct observation of a traded price may not be possible. In these circumstances, the Bank uses alternative market information to validate the financial instrument's fair value, with greater weight given to information that is considered to be more relevant and reliable.

Level 1 fair value measurements are those derived from unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 valuations are those with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.

Level 3 portfolios are those where at least one input, which could have a significant effect on the instrument's valuation, is not based on observable market data.

Impairment

At each reporting date, the Entity assesses whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired. A financial asset or a group of financial assets is impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the asset(s) and that the loss event has an impact on the future cash flows of the asset(s) that can be estimated reliably.

Objective evidence that financial assets are impaired includes:

- significant financial difficulty of the borrower or issuer;
- default or delinquency by a borrower;
- the restructuring of a loan or advance by the Entity on terms that the Entity would not consider otherwise;
- indications that a borrower or issuer will enter bankruptcy;
- the disappearance of an active market for a security; or
- Observable data relating to a group of assets such as adverse changes in the payment status of borrowers or issuers in the group, or economic conditions that correlate with defaults in the group.

In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment. The Entity considers evidence of impairment for loans and advances and held to - maturity investment securities at both a specific asset and a collective level. All individually significant loans and receivables and held-to-maturity investment securities are assessed for specific impairment.

Impairment losses on assets measured at amortized cost are calculated as the difference between the carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate.

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognized. If the cash flows of the renegotiated asset are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognized and the new financial asset is recognized at fair value. The impairment loss before an expected restructuring is measured as follows:

- If the expected restructuring will not result in de-recognition of the existing asset, then the estimated cash flows arising from the modified financial asset are included in the measurement of the existing asset based on their expected timing and amounts discounted at the original effective interest rate of the existing financial asset.
- If the expected restructuring will result in de-recognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its de-recognition. This amount is discounted from the expected date of de-recognition to the reporting date using the original effective interest rate of the existing financial asset.

Impairment losses are recognized in profit or loss and reflected in an allowance account against loans and receivables or held-to-maturity investment securities. If an event occurring after the impairment was recognized causes the amount of impairment loss to decrease, then the decrease in impairment loss is reversed through profit or loss.

Impairment losses on available-for-sale investment securities are recognized by reclassifying the losses accumulated in the fair value reserve in equity to profit or loss. The cumulative loss that is reclassified from equity to profit or loss is the difference between the acquisition cost, net of any principal repayment and amortization, and the current fair value, less any impairment loss recognised previously in profit or loss. Changes in impairment

attributable to application of the effective interest method are reflected as a component of interest income.

If, in a subsequent period, the fair value of an impaired available-for-sale debt security increases and the increase can be related objectively to an event occurring after the impairment loss was recognized, then the impairment loss is reversed through profit or loss; otherwise, any increase in fair value is recognized through OCI. Any subsequent recovery in the fair value of an impaired available-for-sale equity security is always recognized in OCI.

Comparison of impairment as per NFRS and NRB:

Amnt In Rs.

Particulars	2077	2076
LLP as per NRB	3,552,449,164	3,015,790,786
Impairment as per NFRS	2,336,482,688	2,134,561,074

As per carve out issued by ICAN, higher of the loan loss provision to be maintained as per NRB Directives or Impairment calculated as per NFRS should be presented in financial statements. Hence, LLP as per NRB Directives has been presented in the financial statements.

3.5 Trading Assets

Trading Assets are those assets which are held for the purpose of selling or repurchasing in the near term or if on initial recognition is part of a portfolio of identifiable investments that are managed together and for which there is evidence of a recent actual pattern of short-term profit taking. It includes non-derivative financial assets.

The bank currently doesn't hold any asset to be classified as trading assets.

3.6 Derivative Assets and Derivative Liabilities

Derivative assets and liabilities (herein referred to as instrument) is a contract whose value changes to the change in agreed-upon underlying financial asset/liability which requires no initial net investment and is settled at future date. Derivative instruments includes transactions like interest rate swap, currency swap, forward foreign exchange contract etc. held for trading as well as risk management purposes. Derivative financial instruments are initially measured at fair value on the contract date and are subsequently re-measured to fair value at each reporting date.

Details of Derivative assets and liabilities are presented under Schedule No. 4.4 and 4.19 respectively.

3.7 Property & Equipment

Property, plant and equipment are tangible items that are held for use in the production or supply of goods or services or for administrative purposes and are expected to be used during more than one period.

Recognition and Measurement

As per NAS 16 – "Property plant and equipment", Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

If significant parts of an item of property or equipment have different useful lives, then they are accounted for as separate items (major components) of property and equipment as mentioned in NAS 16.

Any gain or loss on disposal of an item of property and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised within other income in profit or loss

Subsequent Costs

Subsequent expenditure is capitalized only when it is probable that the future economic benefits of the expenditure will flow to the Entity. On-going repairs and maintenance are expensed as incurred.

Assets with a value of less than NPR 10,000 are charged off to revenue in the year of purchase irrespective of their useful life.

Depreciation is charged to Profit & Loss Account on a Written-down-Value method over the estimated useful life of the relevant assets. For calculation of depreciation, assets put to use for more than six months in a F/Y are considered full value, three to six months at two third of the cost and less than three months at one third of the cost. The rates of depreciation are determined based on the estimated useful life are as follows:

Nature of Assets	Depreciation Rate (%)
Buildings	5
Vehicles	20
Office Equipment	25
Computers and Accessories	25
Furniture and Fixtures	25
Machinery Items (ATM, Generator)	15

Leased assets and leasehold improvement is amortized on a straight-line basis using the rates determined with reference to the lease period or 10% whichever is higher.

Software applications purchased by the Bank and system development expenses are capitalized at acquisition cost and amortized over a period of five years from the date of acquisition.

De-recognition

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from de-recognition of an item of property, plant and equipment is included in profit or loss when the item is derecognised.

3.8 Goodwill and Intangible Assets

Goodwill

“Goodwill” denotes the value of certain non-monetary, non-physical resources of the business that are not identifiable. Goodwill is more of a miscellaneous category for intangible assets that are harder to parse out individually or measured directly. Customer loyalty, brand equity, name/brand recognition and company reputation all of the things that make a company worth more than its book value, or quantifiable assets count as goodwill. Goodwill has a useful life which is indefinite, unlike most of the other intangible assets. Goodwill only shows up on a balance sheet when two companies complete a merger or acquisition. When a company buys another firm, anything it pays above and beyond the net value of the target’s identifiable assets becomes goodwill on the balance sheet. Goodwill is a premium paid over the fair value of assets during the purchase of a company. Hence, it is tagged to a company or business and cannot be sold or purchased independently

Intangible Assets

Software has been categorized under Intangible Assets. Software acquired by the Group is measured at cost less accumulated amortization and any accumulated impairment losses.

Subsequent expenditure on software assets is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

Software is amortized on a straight-line basis in profit or loss over its estimated useful life, from the date on which it is available for use. The estimated useful life of software for the current and comparative periods is five years. Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Asset Category	For the year ended 15 July 2020	For the year ended 16 July 2019
Computer Software	Lower of 5 years or License period	Lower of 5 years or License period

3.9 Investment Property

Investment property is the non-current asset held by the entity for capital appreciation or rental income rather than owner-occupied. It is not held for the consumption of business. The bank doesn't intentionally purchases any property for the capital appreciation or rental.

As per the Directive of NRB, this heading shall include land, land and building acquired as non-banking asset but not sold.

The bank has adopted cost model for the recognition and measurement of investment property. According to which the bank has initially recognized the assets at cost and subsequently depreciated such asset as per NAS 40 "Investment Property".

Details of Investment Properties have been depicted under Schedule No. 4.12.

3.10 Income Tax

Current Tax

Provision for current income tax is made in accordance with the provisions of the prevailing Income Tax Act, 2058 and Rules including amendments thereon. Current tax payable (or recoverable) is based on the taxable profit for the year. Taxable profit differs from the profit reported in the statement of profit or loss, because some item of income or expense are taxable or deductible in different years or may never be taxable or deductible.

Net of Current tax assets and current tax liabilities have been shown on the face of statement of financial position.

Tax Settlement Status

The bank has filed tax returns with the Inland Revenue Office for the financial years up to 2075/76 (2018/19) under self-assessment procedures. Inland Revenue office has completed assessment/reassessment of Bank's tax liability up to Financial Year 2072/73 (2015/16).

The total disputed amount from FY 2063/64 to FY 2071/72 of NPR 129, 255,412 has been disclosed as contingent liability on income tax under schedule 4.28.

On account of total Loss carried forward from merged entities NPR 20, 470,947 has been adjusted with the taxable income of the Bank during F/Y 2076/77 for calculation of Income Tax Provision Account. Remaining loss of NPR 24,453,069 shall be adjusted as per the provisions of Income Tax Act, 2058.

Deferred Tax

Deferred taxation is provided using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the tax base of assets and liabilities, which is the amount attributed to those assets and liabilities for tax purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates

enacted or substantively enacted on the reporting date. The existing tax rate 30% has been taken for the computation of deferred tax for the current year.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

3.11 Deposits, Debt Securities Issued and Subordinated Liabilities

The estimated fair value of deposits with no stated maturity period is the amount repayable on demand.

Deposits by banks

Deposits by banks comprise amounts owed to other domestic or foreign banks.

Customer accounts

Customer accounts comprise amounts owed to creditors that are not banks.

However, liabilities in the form of debt securities and any liabilities for which transferable certificates have been issued are excluded (as they form part of debt securities in issue).

Deposits by banks & customers are financial liabilities - as there is an obligation to deliver cash or financial assets back to the depositing bank or customer – and are initially recognised at fair value, plus for those financial liabilities not at fair value through profit and loss, transaction costs directly attributable to the acquisition. Fair value is usually the transaction price.

The bank borrows money by issuing debt securities and subordinated debt. The borrowing is acknowledged or evidenced by issue of a negotiable instrument. The negotiable instrument can be certificate of deposit, commercial paper or debt note.

Subordinated debt is issued to meet the capital requirements at bank level and to supply the capital to various operations. This debt generally consists of negotiable instruments and is usually listed on exchanges providing an active secondary market for the debt.

Following is the break-up of total deposits customer-wise as well as product-wise, Figures are presented in thousands of NPR.

Particulars	Current Year	Previous Year
Deposits from Customer	128,740,771	105,488,506

Subordinated Liabilities

These comprise of liabilities subordinated, at the event of winding up, to the claims of depositors, debt securities issued and other creditors. Items eligible for presentation under this line item include redeemable preference share, subordinated notes issued, borrowings etc. These are subject to the same accounting policies applied to financial liabilities measured at amortized cost. The Group does not have any subordinated liabilities at the reporting date.

The bank does not have any subordinated liabilities.

3.12 Provisions

A provision is recognized if, as a result of a past event, the Entity has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. The amount recognized is the best estimate of the consideration required to settle the present obligation at the reporting date, taking in to account the risks and uncertainties surrounding the obligation at that date. A provision for onerous contracts is recognized when the expected benefits to be derived by the Bank from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured as the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract.

Provision are not recognized for future operating losses.

The provisions and its movement are reported under schedule 4.22. The contingent liabilities & commitments are reported under schedule 4.28.

3.13 Revenue Recognition

Interest Income

Interest Income is recognized on accrual basis using the effective interest rate method for all financial assets measured at amortized cost, interest bearing financial asset designated at fair value through profit or loss or classified as available for sale. EIR is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability.

In-case a financial asset has been impaired the bank reduces the carrying amount of the asset to its estimated recoverable amount using the effective interest rate of the instrument and continues unwinding of the discount rate as interest income.

Moreover, Bank has followed guidelines issued by Nepal Rastra Bank for suspension and/or cessation to accrue of interest income, wherever applicable.

The amount accrued till year end which has been recovered from customer after ashad end 2077 amounting to Rs 202,086,399 has been adjusted in statement of distributable profit and loss.

Bank has capitalized interest income on the national priority sector project loans to the extent of NPR 255.52 million. Approval of interest capitalization has been duly obtained from Nepal Rastra Bank.

Impact of COVID 19 Pandemic on the Interest Income

As per Notice Issued by NRB 21/076/77 dated 2077/01/16, in order to mitigate impact of COVID 19 to loan borrower, BFIs required to lower interest rate by 2% applicable as on Chaitra end 2076. Bank has provided total rebate of Rs. 415,410,040 to 18,607 customers as a rebate of 2% on applied interest rate during the period of 4th Qtr. Of fiscal year 2076-77.

Further, as per NRB 18/076/77 dated 2076/12/16, BFI's required providing 10% discount on interest due in Mid-April, 2020 if payment is made in the same month. Discount as such amounting to Rs.21, 997,536 to 9,397 customers has also been provided and adjusted in Interest Income.

Fee and Commission Income

Fee income is earned for diverse ranges of services provided by the bank to its customers. Fee income arises on the execution of a significant act completed or from provision of services like asset management, portfolio management, management advisory and service fees etc. The fees and commission income that are integral to the effective interest rate on the financial assets are included in the measurement of the effective interest rate and shall not be recognized as income, however immaterial amount can be recognized in profit or loss account as income. Bank has a policy to treat loan administration fees up-to 1% of loan amount as immaterial.

Dividend Income

Dividend income is recognized in profit or loss on an accrual basis when the Entity's right to receive the dividend is established. Dividends are presented in net trading income or other operating income based on the underlying classification of the equity investment.

Net Trading Income

Trading income comprises gains less losses relating to trading assets and liabilities, and includes all realized interest; dividend and foreign exchange differences as well as unrealized changes in fair value of trading assets and liabilities shall be presented under this account head. The term 'Trading', in the context of financial instruments, is defined as active and frequent buying and selling of financial instruments with the objective of generating a profit from short-term fluctuations in price or dealer's margin. Gains and losses on trading instruments are recognised in the income statement on a mark-to-market basis and not on a cash basis.

Net Income from Other Financial Instrument at Fair Value through Profit or Loss

At initial recognition, the bank may choose to designate certain financial assets and liabilities as being held at fair value through profit or loss (the fair value option). Realised and unrealised gains and losses on these instruments are reported through net trading income.

Trading assets such as equity shares and mutual fund are recognized at fair value through profit or loss. No other financial instruments are designated at fair value through profit or loss. The bank has no income under the heading net income from other financial instrument at fair value through profit or loss.

The bank does not have net trading income from other financial instrument at FVTPL.

3.14 Interest Expense

Interest expense has been recognized in the accrual basis using the effective interest rate for financial liabilities measured at amortized cost. EIR is the rate that exactly discounts estimated future payment or receipts through the expected life of the financial instrument or a shorter period where appropriated to the net carrying amount of the financial asset or the financial liability.

3.15 Employee Benefits

Employee benefits include all forms of consideration given by an entity in exchange for service rendered by employees or for the termination of employment.

Defined Contribution Plan

A defined contribution plan is a post-employment plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay a further amount. Obligations for contributions to defined contribution plans are recognised as expense in the profit or loss as and when they are due.

The Bank operates a defined contribution plans as provident fund contribution of its employees and defined benefit plans for the Gratuity and leave payment requirement under its staff rules.

Defined Benefit Plan

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Gratuity is a Defined Benefit Plan. The Entity annually measures the value of the promised retirement benefits for gratuity, which is a Defined Benefit Plan. Actuarial Valuation of Defined Benefit Plan has been carried out as per the requirement of NAS 19 – Employee Benefits.

Gain or loss arising as a result of changes in assumptions is recognized in other comprehensive income (OCI) in the period in which it arises.

In case of staff home loans provided under Staff Bylaws of the Bank under Insurance-Tied up Scheme, revenue has been calculated based on the estimated bonus rates (compounded by savings interest rate) provided by the insurance companies, which is 6.5% simple interest return for the Bank after reimbursing the half of the return to the respective staff. Bank has the policy to reimburse the half of the bonus received from insurance company at the end of the insurance term to the respective staff.

3.16 Leases

Lease is a contract in which one party provides an asset to the other party for some consideration usually a periodic payment. Lease can be either financial lease or operating lease. In Financial lease the lessee not only has the operating control over the asset but assumes the economic risk and return from the asset. While in operating lease the contract only allows the use of the asset.

The bank doesn't hold any financial lease.

Operating leases are not recognised on the balance sheet. Bank has recognized operating lease expense on Straight Line Method as per requirement of NFRS.

3.17 Foreign Currency Translation

Foreign currency transactions are those conducted in a currency other than the functional currency of the bank. The functional currency is the currency of the primary economic environment in which an entity operates. Transactions in foreign currencies are translated into the respective functional currency of Entity at the spot exchange rates at the date of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the spot exchange rate (Closing rate) at that date. The foreign currency gain or loss on monetary items is the difference between the amortized cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortized cost in the foreign currency translated at the spot exchange rate at the end of the year.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the spot exchange rate at the date on which the fair value is determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the spot exchange rate at the date of the transaction.

Foreign currency differences arising on translation are recognised in profit or loss.

Explanatory Notes

Foreign currency translation gain/loss is presented under schedule 4.34 other operating income. 25% of such re

valuation gain, if any is transferred to foreign exchange fluctuation fund as per the requirement of NRB directive/BAFIA 2073. During the current year, there was a gain of NPR 14,137,582.

3.18 Financial Guarantee and Loan Commitment

Financial guarantee are bond undertaken by the bank that requires the bank to reimburse the beneficiary of the bond in case the applicant of the bond fails to fulfil their commitments. Loan commitments are commitments by the bank to provide credit under pre-specified terms and conditions in the future. Financial guarantee are recognized as contingent liability and are continuously assessed if any actual financial obligation exists.

Details of Loan Commitments are disclosed in Sch. 4.28.

3.19 Share Capital and Reserves

Financial Instrument issued are classified as equity if that interest gives the holder an evidence of residual asset in the entity after deducting all of its liabilities and there exists no contractual obligation to transfer cash or other financial instrument.

General reserve

This is a statutory reserve and is a compliance requirement of NRB directive no. 4/75 and stipulations of BAFIA. The Bank is required to appropriate a minimum 20% of current year's net profit into this heading each year until it becomes double of paid up capital and then after a minimum 10% of profit each year. This reserve is not available for distribution to shareholders in any form and requires specific approval of the central bank for any transfers from this heading. The Bank has consistently appropriated the required amount from each year's profit into this heading. There is no such statutory requirement for the Subsidiary.

Movement in the General Reserve during the Fiscal Year (Amount in '000):

Particulars	Amount in '000

Fair value reserve

This is a non-statutory reserve and is a requirement in the application of accounting policy for financial assets. NFRS 9 requires that cumulative net change in the fair value of financial assets measured at FVTOCI is recognized under fair value reserve heading until the fair valued asset is de-recognized. Any realized fair value changes upon disposal of the re-valued asset is reclassified from this reserve heading to retained earnings. The Group has complied with this accounting policy application.

Movement in the Fair Value Reserve during the Fiscal Year (Amount in '000):

Particulars	Amount in '000
Opening Balance as on 1st Shrawan, 2076	239,338
Transfer from OCI (after tax increment in fair value)	77,653
Less: Transfer from the Reserve	-
Closing Balance as on 31st Ashadh, 2077	316,992

Asset revaluation reserve

This is a non-statutory reserve and is a requirement in the application of accounting policy for non-financial assets such as property, equipment, investment property and intangible assets that are measured following a re-valuation model. Revaluation reserves often serve as a cushion against unexpected losses but may not be fully available to absorb unexpected losses due to the subsequent deterioration in market values and tax consequences of revaluation. The Group does not have any amount to present under asset revaluation reserve.

Capital reserve

This is a non-statutory reserve and represents the amount of all capital nature reserves such as the amounts arising from share forfeiture, capital grants and capital reserve arising out of business combinations. Funds in this reserve are not available for distribution of cash dividend but can be capitalized by issuing bonus shares upon obtaining prior approval from the central bank.

Corporate social responsibility fund

This is a statutory reserve and is a compliance requirement of NRB Directive No. 6. The Bank is required to appropriate an amount equivalent to 1% of net profit into this fund annually. The fund is created towards funding the Bank's corporate social responsibility expenditure during the subsequent year. Balance in this fund is directly reclassified to retained earnings in the subsequent year to the extent of payments made under corporate social responsibility activities. There is no such statutory requirement for the Subsidiary.

Movement in the CSR Fund during the year:

Particulars	Amount in '000
Opening CSR Fund	35,080
Transfer to the CSR Fund (1% of Net Profit)	11,942
Less: Contribution from CSR Fund	20,394
Closing CSR Fund	26,628

Investment adjustment reserve

This is a statutory reserve heading and is a compliance requirement of NRB directive no. 4/075 and 8/075. The Bank is required to maintain balance in this reserve heading which is calculated at fixed percentages of the cost of equity investments that are not held for trading. Changes in this reserve requirement are reclassified to retained earnings. The Bank has consistently appropriated the required amount from each year's profit into this heading. There is no such statutory requirement for the Subsidiary.

Movement in the Investment Adjustment Reserve during the Fiscal Year (Amount in' 000):

Particulars	Amount in '000
Opening Balance as on 1st Shrawan, 2076	117,721

Actuarial gain / loss reserve

This is a non-statutory reserve and is a requirement in the application of accounting policy for employee benefits. NAS 19 requires that actuarial gain or loss resultant of the change in actuarial assumptions used to value defined benefit obligations be presented under this reserve heading. Any change in this reserve heading is recognized through other comprehensive income and is not an appropriation of net profit. The Group has complied with this accounting policy application.

Movement in the Actuarial Gain/ Loss Reserve during the Fiscal Year (Amount in' 000):

Particulars	Amount in '000
Opening Balance as on 1st Shrawan, 2076	(168,968)

Closing Balance as on 31st Ashadh, 2077	(278,446)

Regulatory reserve

This is a statutory reserve and is a requirement in the application of accounting policy as prescribed in NRB directive no. 4/075. In the transition to NFRS from previous GAAP the Bank is required to reclassify all amounts that are resultant of re-measurement adjustments and that are recognized in retained earnings into this reserve heading. The amount reclassified to this reserve includes re-measurement adjustments such as interest income recognized against interest receivables, difference in loan loss provision as per NRB directive and impairment on loan and advance as per NFRS, amount equals to deferred tax assets, actual loss recognized in other comprehensive income, amount of goodwill recognized under NFRS, etc. Balance in this reserve is not regarded as free for distribution of dividend. The Bank has complied with this regulatory requirement. There is no such statutory requirement for the Subsidiary.

Movement in the Regulatory Reserve during the Fiscal Year (Amount in' 000):

Other reserve fund

Employees training and capacity development fund

This is a statutory reserve and is a compliance requirement of NRB circular 6/075. The Bank is required to incur expenses towards employee training and development for an amount that is equivalent to at least 3% of the preceding year's total personnel expenses. Any shortfall amount in meeting this mandatory expense requirement in the current year will have to be transferred to this reserve fund through appropriation of net profit and the amount shall accumulate in the fund available for related expenses in the subsequent year. Balance in this fund is directly reclassified to retained earnings in the subsequent year to the extent of expenses made for employees training related activities.

There is no movement in this fund during the year as Nepal Rastra Bank has pronounced that the provision of mandatory transfer shall not be mandatory this year because of adverse situation caused by Covid-19 pandemic.

Proposed Distributions (Dividends and Bonus Shares)

The Board has recommended 0.526% as cash dividend (for the purpose of tax on bonus shares) and 10% bonus shares for the reported year, 2019-20. This proposal of the Board of Directors is subject to the ratification by the Annual General meeting of the Shareholders. The proposed distribution shall be recognised in equity in the period in which they are paid.

3.20 Earnings per Share including Diluted

Earnings per share (EPS) is the portion of the company profit allocated to each outstanding share of the common stock. Diluted earnings per share is the calculation of the EPS if all convertible securities were exercised. Bank has fully followed NAS 33 Earnings per Share for the calculation of EPS.

Basic earnings per share is calculated by dividing the net profit for the year attributable to equity holders of the parent by the weighted average number of ordinary shares outstanding during the year, as per the NAS 33 - Earnings per Share.

Previous years' Basic and Diluted EPS has been adjusted retrospectively due to issue of 16% bonus shares during the current year, as per NAS 33.

	2020	2019
Profit Attributable to ordinary Shareholders	1,194,203,890	1,783,592,538
Weighted average number of Ordinary Shares	103,155,066	103,155,066
Basic Earnings per Ordinary Share (Rs.)	11.58	17.29

The calculation of Diluted Earnings Per Share as at reporting date was based on the profit attributable to equity holders of the Bank by the weighted average number of ordinary shares outstanding during the year, after adjustment for the effects of all potentially dilutive weighted average number of ordinary shares.

3.21 Segment Reporting

Segment Reporting is the reporting of the operating segment of the entity. A segment is reportable if:

- It has at least 10% of the revenues, 10% of the profit or loss, or 10% of the combined assets of the entity.

Segment can be categorized either on the basis of geographic segment or business segment. The bank has categorized its segment on the basis of functions and services provided to the customers. Segment assets, segment liabilities, total revenue, total expenses and operating profit are disclosed. Branches of the bank are classified under the regional operating structure for monitoring and supervision. The transaction between the branches are charged at transfer price decided by Asset Liability Management Committee of the bank. The disclosure has been prepared in accordance with the requirements of NFRS

5. Disclosures & Additional Information

5.1 Risk management

Risk is inevitable naturally for the banking business and because of that profit and prestige are the indeed reward for the risk management. Prabhu Bank clearly understands that excessive or poorly managed risk, side by side, taking the risk beyond its risk capacity, can lead both financial and non-financial losses. Risk taking attitude can be considered logical only when the risks are understandable, measurable, and controllable and are within the Bank's risk capacity. Sound risk management system in doing business enables the Bank to take risks in systematic manner by understanding the risk capacity, setting the risk appetite and risk tolerance.

Given the ground, Prabhu Bank, in line with Nepal Rastra Bank's Directives /guideline paper and its own Risk Management Policy, is moving ahead with a formation of comprehensive mechanism to identify, assess, measure, monitor and control of all types of risks. The Bank's current risk management structural framework is as follows:

Thus, with the objective to move ahead prudently, risk management approaches as briefed below is adopted by the Bank.

Credit Risk: Credit Risk is the possible losses from the non-payment of interest and /or principal by the Bank's borrowers or debtors as per the agreed terms of credit sanction. In order to ensure sound credit risk management system, credit risk management responsibilities are shared to three distinct functions, namely relationship management, credit risk assessment and credit administration. There has been clear demarcation on the roles and responsibilities of the three functions.

Besides to analysis of trend and assess the exposure impacts, credit risk unit ensures credit policy, procedural manuals and other required activities to develop risk management culture throughout the Bank.

The following table shows the risk concentration of Loans & Advances by Industry: NPR in Thousand

Particulars	Manufacturing	Banks, Financial & Business Services	Agriculture, Tourism & Trading	Construction	Others	Total
Loans & Advances -Mid July 2020*	13,501,585	22,992,447	31,551,293	14,488,989	20,599,966	103,134,280
Loans & Advances -Mid July 2019*	13,039,558	19,637,923	27,168,983	13,072,807	17,360,607	90,279,877

*Loans & Advances do not include staff loan and interest receivable

Operational Risk: Operational risk is the risk of loss resulting from technology, inadequacy of internal procedure, breach of laid down procedures, incapable people and failure of system or adverse external disasters. Prabhu Bank aims to minimize the frequency and impact of unexpected operational loss by ensuring well defined operational manuals and guidelines covering each type of activities, train the people to ensure smooth delivery of service, check and balance of authority delegation, comprehensive internal audit and follow up on audit remarks and business continuity plan for possible external disasters.

In order to manage the operation risk, Operation Risk unit remains vigilant for the monitoring operational activities throughout the Bank. In addition to making the Bank enable for required policy and procedural mechanism, it collects operational incidents taken place in the Bank and external relevant information and submits reports to Risk Mgmt. Committee as well Operation Risk Management Committee with the recommendation of required remedies that are advised to the Bank Management for necessary execution.

Market, Liquidity & Other Risk: Market risk is the possible losses resulting from the change in interest rate, foreign currency exchange rates or price of commodity or investments. Market risks are arisen from rapidly changing external factors, thus highly sensitive in banking business. The Bank has Market Risk unit which is independent from Treasury Dealer and Treasury Back Office. It monitors day to day activities and decisions related to treasury and reviews /analyses the trend of liquidity, interest rate and FCY exchange rate and assesses the exposure's impacts. Adequate system for monitoring and reporting the risk exposures and assessing how the bank's changing risk profile affects the need for capital had been established.

In addition, liquid assets are maintained in relation to cash flows to provide further sources of funding in the event of a crisis by carefully preparing and reporting the Structural Liquidity Position, gap analysis and stress test on

regular time interval which are further presented in ALCO (Asset Liability Management Committee) for appropriate decision taking and future strategy setting.

The table below summarises the maturity profile of the undiscounted cash flows of the Bank's financial assets and liabilities as at Ashadh 31, 2076. Repayments which are subject to notice are treated as if notice were to be given immediately. However, the Bank expects that many customers will not request repayment on the earliest date it could be required to pay and the table does not reflect the expected cash flows indicated by its deposit retention history.

Financial instruments are recorded at fair value. The following is a description of how fair values are determined for financial instruments that are recorded at fair value using valuation techniques. These incorporate the bank's estimate of assumptions that a market participant would make when valuing the instruments.

For all financial instruments where fair values are determined by referring to externally quoted prices or observable pricing inputs to models, independent price determination or validation is obtained. In an inactive market, direct observation of a traded price may not be possible. In these circumstances, the Bank uses alternative market information to validate the financial instrument's fair value, with greater weight given to information that is considered to be more relevant and reliable. Financials assets measured at fair value (either through PL or OCI), primarily consisting of quoted equities and Quoted Mutual Fund units, are valued using the quoted market price in active markets as at the reporting date. If unquoted, those are carried at cost.

Financial investments - Measured through OCI

Financials assets measured through OCI, primarily consist of quoted equities and Quoted Mutual Fund units are valued using the quoted market price in active markets as at the reporting date. For unquoted securities those are carried at cost.

Besides to above, a full-fledged Compliance Department is formed headed by Head - Compliance under direct supervision of Chief Executive Officer to ensure compliance of regulatory requirements and internal policies. Likewise, audit function is also independent and Internal Audit Department ensures in development of internal procedures and checks and control system /procedures and reports to Board level Audit Committee.

5.2 Capital Management

Bank has rolled out its ICAAP Policy, 2015 amended in 2017 with the following fundamental purposes:

- Development of policy, practice, processes, system and plan to meet the regulatory and economic capital under the Pillar 2 of the Basel II Capital Accord.
- Report the Board about the ongoing assessment of the bank's risk profile, mitigation mechanisms being applied and estimated future capital requirements of the bank.
- Communicate and justify the regulatory authority about the procedure and methodology adopted for ICAAP based on present and future risk profile of the bank.
- Ensuring that management exercises sound judgment and set aside adequate capital for material risks in accordance with the overall risk.

As per ICAAP Policy, 2015, amended in 2017, tolerable risk appetite of the Bank shall be as follows:

Risk Category	Risk Appetite Level			
	Economic Capital Allocation	Low	Medium	High
Credit Risk	80.00% to 82.00%	✓		
Operation Risk	4.50% to 4.75%		✓	
Market Risk	0.20% to 0.25%		✓	
Supervisory Adjustments	1.75% to 2.55%		✓	
Other Risk	0.05% to 0.10%			✓

Standard Risk appetite under Credit Risk, Operation Risk, Market Risk, supervisory adjustment and Other Risk are set at 80%, 7.25%, 0.25%, 1% and 0.25% of total capital fund respectively. Meanwhile, Maximum tolerable risk under Credit Risk, Operation Risk, Market Risk, supervisory adjustment and Other Risk are set at 85%, 9.50%, 0.75%, 3% and 0.50% total capital fund respectively.

In order to comply with prudential floor prescribed by NRB, the Bank has computed and reported the capital adequacy position as per Basel III norms.

5.1 Share options and share based payment

“Share options” is a contract that gives the holder the right, but not the obligation, to subscribe the bank’s shares at a fixed or determinable price for a specified period.

A share-based payment is a transaction in which the bank receives goods or services either as consideration for its equity instruments or by incurring liabilities for amounts based on the price of the bank’s shares or other equity instruments of the bank.

Explanatory Notes

The bank does not have any share options contract and share based payment transactions for the reporting period.

5.2 Contingent liabilities and commitment

Contingent liabilities: Where the Bank undertakes to make a payment on behalf of its customers for guarantees issued, such as for performance bonds or as irrevocable letters of credit as part of the Bank’s transaction banking business for which an obligation to make a payment has not arisen at the reporting date, those are included in these financial statements as contingent liabilities.

Other contingent liabilities primarily include revocable letters of credit and bonds issued on behalf of customers to customs, for bids or offers.

Commitments: Where the Bank has confirmed its intention to provide funds to a customer or on behalf of a customer in the form of loans, overdrafts, future guarantees, whether cancellable or not, or letters of credit and the Bank has not made payments at the reporting date, those instruments are included in these financial statement as commitments.

Explanatory Notes

The Bank seeks to comply with all applicable laws and regulations, but may be subject to regulatory actions and investigations, the outcome of which are generally difficult to predict and can be material to the bank.

In addition to these matters, the Bank may receive legal claims against it in the normal course of business. The Bank considers none of these claims as material. Where appropriate, the bank recognises a provision for liabilities when it is probable that an outflow of economic resources embodying economic benefits will be required and for which a reliable estimate can be made of the obligation(s).

Details relating to Contingent liabilities and commitment are depicted under schedule 4.28.

5.3 Related parties disclosures

The Bank has carried out transactions in the ordinary course of business on an arm’s length basis at commercial rates with parties as per Nepal Accounting Standard – NAS 24- “Related Party Disclosures”, except for the transactions that Key Management Personnel (KMPs) have availed under schemes uniformly applicable to all staff at concessionary rates.

Parent and Ultimate Controlling Party:

The Bank does not have an identifiable parent of its own.

Transactions with Key Management Personnel (KMPs):

As per NAS -24- Related Party Disclosures, KMP are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the entity.

Board of Directors and the members of top level Management are considered as KMP of the Bank.
